IMMUNOLOGY2023™
THE ANNUAL MEETING OF THE AMERICAN ASSOCIATION OF IMMUNOLOGISTS

SPONSORSHIP OPPORTUNITIES
MAY 11–15, 2023 | WASHINGTON, DC
WWW.IMMUNOLOGY2023.ORG
There has never been a more exciting or important time to be in the field of immunology research. Immunology continues to be “front and center” as we navigate through the COVID pandemic—and its critical importance extends to all areas of basic research and resultant clinical applications for inflammation, autoimmune diseases, allergies, cancer biology and treatments, infectious diseases, and vaccine development, to name a few. We further our ability to meet these medical challenges by advancing our understanding of the basic mechanisms of the immune system.

You, as industry professionals, provide researchers with the tools and services that effect these discoveries. You are integral in this amazing time of immunological advancement. Show your support for the accomplishments of today and for the next generation of scientists who will make them tomorrow.

Highlight your organization’s role in the field by becoming a sponsor at IMMUNOLOGY2023™. The AAI Exhibits and Sponsorship Manager will help you find the perfect fit for your organization while keeping in mind your specific target audience, budget, and end results! Contact exhibits@aai.org, or 301-634-7821.

**PLEASE NOTE:** All sponsors will be acknowledged in the printed meeting guide, on signage at the event, on the mobile app, in the walk-in slides shown throughout the meeting, and on the meeting website. Any sponsor with support of $3,000 or more will be recognized as a Premier sponsor and receive the benefits listed on page 8.

**Scientific Programming**

Sponsors of a scientific session will be given the opportunity to provide a 15–20 second video which will play prior to the start of the session. Video is to be produced by the sponsor and provided to AAI by an agreed-upon date.

Career Development

AAI provides important career development programs to scientists at its annual meeting. IMMUNOLOGY2023™ will be hosting the following popular events. Sponsor pricing varies with the size of the event and the nature of food and beverage served. These programs support early career scientists and the PIs of tomorrow.

### Careers in Biotech: Panel Discussion and Networking Reception (1) $5,000

Many opportunities exist in biotechnology for scientists with advanced degrees. There are positions in laboratory research, program management, business development, regulatory affairs, clinical trials oversight, medical liaison, and more. This panel features scientists employed in industry discussing their career paths and the skills required for success. A networking reception immediately follows the panel discussion.

*Qualifies as a Premier Contributing Sponsor*

### Careers in Science: Lecture and Roundtables (1) $5,000

The Careers in Science Lecture and Roundtables, which is organized by the AAI Education Committee and Committee on the Status of Women, strives to educate and inspire emerging scientists. This popular event attracts more than 200 attendees. The audience includes graduate students, postdoctoral fellows, academic investigators, and industry immunologists who gather to discuss specific career issues and options in academia, industry, government, or nonprofit organizations over lunch.

*Qualifies as a Premier Contributing Sponsor*

### Careers Roundtables and Speed Networking Session (1) $6,000

In this popular session organized by the AAI Minority Affairs Committee (MAC), experienced professionals lead discussions over lunch on science career options, opportunities, and challenges, including those related to diversity and equality in academia, industry, government, and nonprofit organizations. In addition, through a structured networking exercise (“elevator pitch”), attendees learn to communicate their scientific interests and objectives effectively and efficiently.

*Qualifies as a Premier Contributing Sponsor*

### Sip and Learn: Speed Networking with Immunology Educators (1) $4,000

Are you interested in immunology education? Join the editors of ImmunoHorizons and the AAI Education Committee for a networking event for current and future immunology educators! The first part of this session will be short one-on-one meetings, where you’ll have the opportunity to meet others with an interest in immunology education. Then attendees can continue their conversations in a relaxed setting over coffee. All are welcome! Scientists and trainees of all backgrounds are encouraged to attend.

### How to Convert Your CV into a Resume (1) $2,000

How you present yourself on paper is critical for anyone seeking a job outside of academia. A well-prepared résumé can make all the difference in securing an interview. This session will focus on the important elements of a professional résumé, the differences between a résumé and the standard academic curriculum vitae (CV), and the information needed to make a good impression. Small breakout sessions for individual consulting will follow (by appointment).

### How to Have a Successful Postdoctoral Experience (1) $2,000

A postdoctoral fellowship is the time to develop the research skills needed to succeed as an independent scientist. It is, however, just as important to develop skills outside of the lab to prepare for a new career path. This session will highlight ways of getting the most out of your postdoctoral fellowship, relating successfully with your mentor, and understanding how to use the resources available to you to ensure that your training prepares you adequately for a seamless transition into the next phase of your career.

### Immunology Teaching Interest Group (1) $2,000

Are you looking for new ideas or strategies to enliven and improve your teaching? If so, please join us for this special interest group that will focus on strategies instructors can use to convey immunology concepts to students at the undergraduate and graduate level. The session will explore the use of test-based learning, animated visual models, active learning strategies, and more, through talks and structured breakout discussion groups.

*Current educators, new faculty, and trainees with an interest in teaching are welcome.*

For information or to reserve your sponsorship, please contact AAI Exhibits and Sponsorship Manager at exhibits@aai.org or 301-634-7821.
Interviewing for a Job (1) $2,000

Interviewing for a job can be a terrifying experience! This session will focus on tips and techniques to help job seekers navigate the interview process successfully. Emphasis will be on how job candidates can present themselves in the best possible light starting with the first handshake. Attendees will also hear how to respond to unexpected questions.

This session is open to anyone but is especially intended for student and postdoctoral attendees.

Career Award Lecture

AAI Vanguard Award & Lecture (1) $6,000

This award and scientific lecture highlight the research of an AAI member selected by the AAI Minority Affairs Committee (MAC) for their scientific achievements and exemplary career success. The Vanguard Lecture has been a popular feature of the AAI annual meeting since 2001 and is open to all meeting attendees.
